YOUR GUIDE TO THE WORLD OF SONIC THE COMIC (STC) & SEGA. PRESENTED BY YOUR HOST, MEGADROID.

CONTROL ZONE

Hey, Boomers!

Halloo, you're now entering STC's pumpkin-packed Halloween issue! Not only is there a surprise spooky free gift (Goosebumps Album & Stickers - see below), but those frightfully good Decap Attack folk are back! Yes, give a big hand for crazy gang members Chuck, Frank, Head, and Igor, who star in The Pumpkin Eater!

Also buried in this issue is a brand new Sonic story called The Tomb! STC shows your scary scrawls in the Fright Zone, plus there's a creepy crawlie review of Worms, and more Sonic 3 hints and tips come out of the woodwork in the Q Zone.

One last thing, Boomers, let me tell you what really gives me the shivers - the things that go bump around the office - those Batbrain humes! Sheesh! Scarey? You ain't seen nothing!

Megadroid

STC GETS...

Scream all you want, the scaretastic Goosebumps Album & stickers is the ultimate Halloween free gift! Taken from the hugely successful US TV series, and the current best selling children's books, Goosebumps mania is set to catch on over here, so Boomers, remember where you saw them first!

WORMS

Reviewed by Jenny Fromer & Nick Protz

GAME TYPE: PLATFORM/SHOOT 'EM-UP
PLAYERS: 1-4

PUBLISHER: SEGA
PRICE: £39.99

RELEASE DATE: OUT NOW
AGE SUITABILITY: ALL

Sega's new Mega Drive four-player title, **Worms**, is your chance to take control of an army of little pink worms and enter into combat against other worm forces! Not that **Worms** is your standard 'shoot 'em-up' - far from it. In fact, to have any chance of success, you'll have to plan a serious worm attack strategy.

The game itself is simple; teams of worms controlled by up to four players and/or the computer, are scattered over a choice of four linear landscapes. These invertebrate armies each have an arsenal of weapons to let loose on their opponents. The last worm standing (or wriggling) wins. Best of all, there are all sorts of options for customising the game in terms of weapons, teams and ground rules. Depending on whether you opt to play in leagues or friendlies, your worms may be spread randomly amongst other teams or in group formations.

What makes this game so addictive is that you have to think very carefully about how best to employ your weapons without leaving your own worms in danger. The weapons control is straightforward and allows you to project grenades, cluster bombs and bazookas through the air, or to fire all sorts of weapons from point-blank range. However, attack is not always the best form of defence and your worms can go to ground or teleport out of harms way. Look out for weapons drops which may contain such special ammunition as the fabulous exploding sheep!

A minor complaint is that the worms are a bit small and it's tricky telling them apart - particularly when your team is dispersed. A recommendation is that you give your worms single initial names so you can spot them in a crowd. There is not much in the way of sound, save for the satisfying noise of weapons exploding on impact.

Worms is completely absorbing, particularly when played against a group of friends. While it may look fairly basic, and offers a limited choice of terrain, it is the thrill of the chase that will keep you hooked.

MEGA DRIVE

THE ZONES - PART 2

HYDROCITY ACT 2

BEWARE OF:

Spinning Pillars, Water Propellers, Speed Hand Catapult, Slides and Bridges.

BADNIKS TO AVOID:

Jawz, Turbo Spiker, Doctor Robotnik.

Use Dash Attacks to go right and watch out for Badniks and the yellow springs (they're just where you don't want them!). There are plenty of fast slide and bridge sections, so don't whiz carelessly past these areas as they may hold goodies. TV's are used sneakily here; they contain useful shields that may be placed over spikes or even Doctor Robotnik!

MARBLE GARDEN ACT 1

Marble Garden is fast and the Badniks loiter in the most painful places.

BEWARE OF:

Platform-raising Wheels, Flying Spinners, Giant Rotating Platforms, Mineshafts and Pulley Lifts.

GUARD AGAINST:

Bubbles, Spikers, Arrow-Shooting Heads, Overhead Spikes, Spiked Ball on Chain, Falling Spiked Pillar and Spike Pole.

Marble Garden has you looping the loop on giant, three-armed rotating platforms. It also has you climbing steep hills using long pulley lifts. You get to collect loads of rings by racing Sonic down long diagonals and by using the flying spinners to good effect. These are also good for covering ground quickly but getting used to flying them takes practice; run Sonic too fast and you'll fly straight into some overhead spikes!

One of the nastiest obstacles is the Rotating Spiked Ball on a Chain. It moves very fast and your timing needs to be spot on to get over it. The secret is to follow it on its back-swing and leap as soon as it starts to swing back towards you. If you find a Lightning Shield, it will automatically draw any surrounding rings to Sonic - just like a magnet! As usual, check the walls around you for hidden chambers and that Giant Gold Ring.

ACT 2

Badnik combos stampede thick and fast in this section, but remember, keep cool!

BEWARE OF:

Pully Lifts and Mineshafts, Arrow-Shooting Heads and Mud Pits.

BADNIKS TO AVOID:

Spikers, Mantis and Bubbles.

The menacing Mantis spring up from underground, usually in groups of two or more, so move carefully when hitting one. When the ground above you begins to fall away, there's a tricky left-to-right sequence you need to use in order to move Sonic to stop him being crushed or captured.
